

Sound Investment

Local Group to be Heard on KSL

Wasatch High School (LRJ) Sound Investment, the high school's singing group directed by Brad Thompson, will be heard over KSL Radio several times

this Christmas Season. They will be performing "A Special Night" by Don Besig. Laurisa Ward will be playing the electric

piano and synthesizer that provides the instrumental background for the piece.

Long before the Christmas season began, the top singing group at the high school began

its practice and later began the recording sessions. This group has already won several awards

in the past couple of years for their fine performances. Most recently they were honored at Utah State Solo and Ensemble where they received a superior rating and were recognized as the "top of the top schools" in the state.

Anyone may call KSL and request that the disc jockeys play the Sound Investment recording.
